Paris, 23 June 2017

Amarisoft, winner of "Télécom Track" by Orange Fab, season 1

Wednesday, June 7th, 2017, Amarisoft has been selected among 22 applicants to join the bolstering program "Télécom Track" by Orange Fab.

"Télécom Track" by Orange Fab, which main objective is to nurture start-ups working on innovation in network and infrastructure sector, will allow Amarisoft to receive support from Orange and to benefit from an access to its global resources, as well as to receive support from "TIP Ecosystem Accelerator Centres" (TEAC) and from Facebook.

In this context, Amarisoft will be also invited to intervene during an event of the TEAC scheduled in November 2017 in San Francisco.

The kick-off event organized on Wednesday, June 7th, 2017 by Orange gathered executives of Orange, of the TIP and of Facebook as well as partners and venture capital investors.
